

POWERING EXCELLENCE IN **IT RACKING** SOLUTIONS

A reliable and efficient racking solution,
packed with state-of-the-art features for the
safety of your devices. 100% Make in India.

MADE IN INDIA

SERVER RACKS

FROSSKIN SERVER RACKS

Designed to securely house servers, storage devices and power equipment within a data center or IT room — optimizing space, airflow and accessibility.

PURPOSE

Optimize floor space

Vertical mounting maximizes usable area in data centers and IT rooms.

Protect critical hardware

Structured enclosures prevent accidental damage and unauthorized access.

Improve airflow & cooling

Perforated doors and organized layouts support efficient thermal management.

Simplify installation & maintenance

Front and rear access with removable side panels for fast servicing.

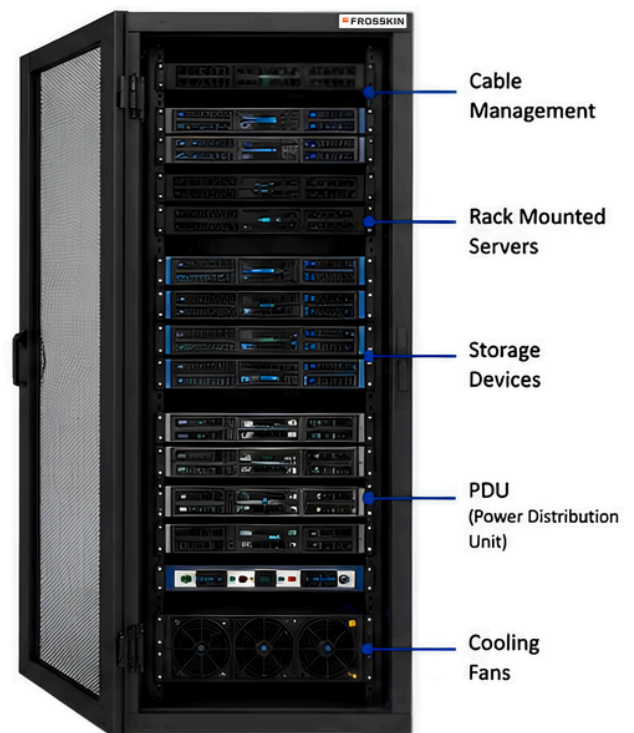

Support scalability

Modular design accommodates future hardware additions without overhaul.

TYPICAL EQUIPMENT

SERVER RACK

- RACK SERVERS
- STORAGE DEVICES
- PDUS & UPS SYSTEMS
- KVM / CONSOLE
- CABLE MANAGEMENT

FROSSKIN 42U SERVER RACK

NETWORKING RACKS

FROSSKIN NETWORKING RACKS

Used to accommodate communication and network equipment such as switches, routers, patch panels and fiber termination units — centralizing your entire network infrastructure.

PURPOSE

Centralize network infrastructure

Single organized location for all network and communication equipment.

Organize fiber-optic cabling

Structured cable routing reduces clutter and prevents signal loss.

Improve accessibility for troubleshooting

Easy front and rear access speeds up diagnosis and fixes.

Enhance network reliability & performance

Proper housing reduces interference and equipment failure rates.

Facilitate future upgrades

Modular layout supports additions without disrupting existing infrastructure.

Maintain a professional installation

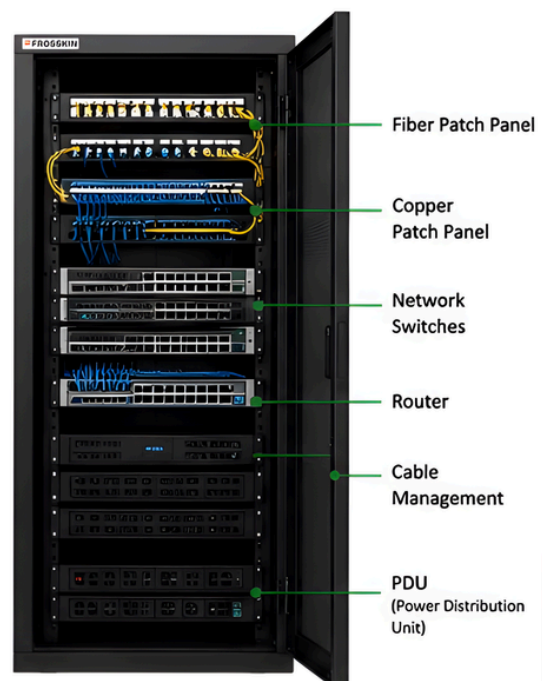

Clean, labeled and secure setup that meets industry standards.

TYPICAL EQUIPMENT

- FIBER/COPPER PATCH PANELS
- NETWORK SWITCHES
- ROUTERS / FIREWALLS
- CABLE MANAGEMENT
- PDU

Standard width: 19 inch
(600/800mm)

Typical height: 42U to 48U
1U = 44.45mm

FROSSKIN 42U NETWORKING RACK

COMBINED ROLE IN A DATA CENTER

- Form the backbone of IT infrastructure
- Ensure efficient equipment organization and management
- Support uninterrupted data communication and processing
- Improve operational efficiency, safety and reliability
- Enable effective cooling, power distribution and cable routing

Let's Work Together!

Ready to power your IT infrastructure with reliable, efficient racking solutions built for the future.
